

Metro Panel

Jacksons Fencing

Metro was designed to make gardens feel longer - a modern take on our Venetian panels, posts are installed behind panels to create a continuous look, offering a sleek, slatted fence that is less imposing than a solid design.

- All timber used throughout is superior quality Jakcure® treated softwood guaranteed for 25 years.
- All fixings are stainless steel.
- Please note, Metro cannot be used with standard Jakposts®.
- Panels are supplied in two smaller heights that can be combined during installation
- Metro is a semi-solid decorative panel, ideal for creating a lighter garden where privacy is not an issue.
- Gravel boards are required where panels are in contact with the ground.

Specification

Panel Heights: 0.607m, 0.907m

Panel Width: 1.83m

0.907m high - 12 pales 45mm x 16mm (Venetian section)

0.607m high - 8 pales 45mm x 16mm

2 no. vertical battens 45mm x 34mm, 2 no. 45mm x 16mm. Metro Panel Internal Corner Batten 1.80m long.

91mm x 91mm square planed posts are recommended

Our Metro fence panel uses a unique gravel board (667620). To meet the conditions of the 25 year guarantee, gravel boards are required where panels are in contact with the ground.

If you need to reduce the width of a panel on site, a cut down kit is available. Always use Jakcure® End Grain Treatment on any cut timber.

Gates

Venetian gates complement this panel, although Venetian has 15mm spacing and these panels have 30mm spacing. Non-standard gates with custom width / heights are available as a special order and are also available as pairs (size restriction applies).

View our website for Q40 specification documents, CAD drawings and products available to buy online.

A fully made to measure service is available. All Jacksons Fencing systems and gates may be designed and manufactured to suit site conditions.

Note that components can temporarily swell up to 6% in width after our Jakcure® process temporarily affecting the overall product dimensions
