

Featherboard Gates

Rear view of gate with optional Brenton Bolt.

Featherboard gates are offered in 0.90m and 1.00m widths; wider gates and paired gates are available to special order, please ask for a price and details. Featherboard gates are constructed using Jakcure® treated softwood in a sawn finish and use galvanised bolts and stainless steel nails. Right hand hanging as standard. (Left hand hanging also available). Please note that pairs of convex or concave garden gates will have one curve as standard. This applies to most garden gates not just Featherboard. Stiles are 120mm wide to allow the fitting of optional J-Lock and Latch.

Our gate posts, like all Jacksons panels and traditional fencing systems, are supplied in natural Jakcure® treated finish and are guaranteed against rot and insect attack for 25 years.

To hang a standard gate up to 0.90m wide, use planed 91mm x 91mm posts. If the standard gate is 0.90m or 1.00m use 125mm x 125mm nominal posts. Slotted end posts (Ref 668500) 2.40m long can be used to hang most standard gates in a fence run. However for certain gate types and non standard sizes you may require taller or larger posts. In this instance, please ask for advice.

The rise and fall on convex and concave Featherboard gates is 75mm. The gate height stated is the maximum height of the gate. We recommend a 50mm gap below the gate for clearance. Adjustable hinges, shutting strips and latch are supplied with every standard gate. They are essential to

ensure the gate is held in the correct position to avoid twisting. Gates and latches are always to be operated by an adult. The structure (right) of the gate remains the same for the Concave and Convex styles.

● Stock items ○ Made to order (cannot be cancelled once ordered)

Featherboard Gates (Level Top)

Gate* Height	Fence Height	Gate Width	Ref
1.78m	1.80m	0.90m	231900 ●
1.18m	1.20m	1.00m	231100 ●
