

Wheelie Bin Store

Jacksons Fencing

The Bin Store is made from Jakcure® treated softwood Tongue and Groove Effect boards and has internal steel support struts for extra strength. It is designed for two wheelie bins, with hinged doors at the front and hinged lids which open upwards to allow access to the bins. Each lid has a chain which can be attached to the wheelie bin, so as the store lid is lifted it automatically raises the bin lid as well.

- All timber used throughout is superior quality Jakcure® treated softwood guaranteed for 25 years.
- All fixings are stainless steel or galvanised.
- Steel support struts are hot dip galvanised and black polyester powder coated for a highly durable and smart appearance.
- Bin store available as a double or triple unit.

Specification

Double Bin Store

Outside: 1200mm (h) x 950mm (d) x 1500mm (w)

Inside*: 1120mm (h) x 800mm (d) x 1350mm (w)

Additional Unit

Outside: 1200mm (h) x 950mm (d) x 750mm (w)

Inside*: 1120mm (h) x 800mm (d) x 680mm (w)

*Please note: Wheelie bins can vary in size - please measure your bin to ensure it will fit in the store by checking the inside measurements for available space. You can only use the shelf in an additional unit, not the main double store.

We reserve the right to alter specifications accordance with our policy of continuous improvement.

View our website for Q40 specification documents, CAD drawings and products available to buy online.

A fully made to measure service is available. All Jacksons Fencing systems and gates may be designed and manufactured to suit site conditions.
